Card Maker Stackers Nesting Dies

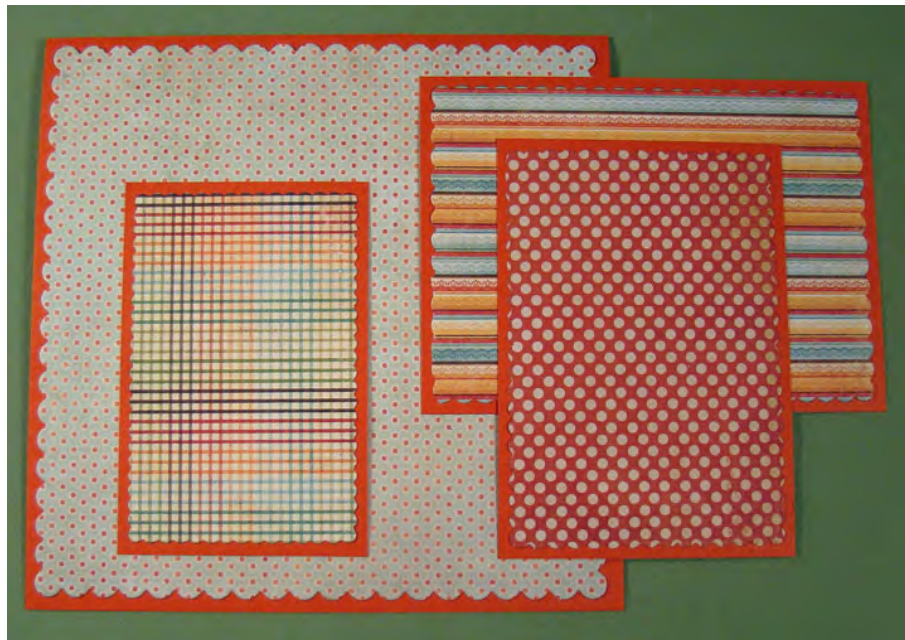

Cheery Lynn Designs Dies needed:  
[Scalloped Rectangle Card Maker Stackers Nesting Dies](#)  
[Scalloped Square XL Stackers Nesting die](#)  
[Scalloped Circle Little Stackers Nesting die](#)  
[Dimensional Large Leaves set.](#)

If you are layer challenged when making your cards, the Cheery Lynn Designs Card Maker Stackers are the dies for you. They come in [Rectangle](#) and [Scalloped Rectangle](#). I used the scalloped set on my card.

I chose my card stock and 3 sheets of matching paper from My Mind's Eye Stella and Rose Mabel 6x6 collection. For my card, I used dies 5, 4 and 3 (with die 6 being the largest). First, I embossed the paper and then die cut them out creating 3 scalloped panels.

For the background of my card I used the largest [Scalloped Square XL Stackers Nesting die](#) and a fourth patterned paper from the same collection. Usually I put the scallops on the outside but I like this look. An easy way to get the rectangle around the scalloped panel is to lay the die flat on the paper and trace around it. Then trim it out and you have a perfect card stock panel to mount your scalloped pattern piece.

Now for the fun part, move the panels around on the card until you get a layout you like. I decided to use the plaid panel for my image; it is the perfect size, adding a ribbon for her to sit on. I stamped Magnolia's Tilda with Puppy onto Cryogen paper with Memento Tuxedo black ink and trimmed her out.

Copics used:

Tilda - E000, E00, R20, white Glaze pen

Hair - YR21, YR24

Bibs - BG000, BG72

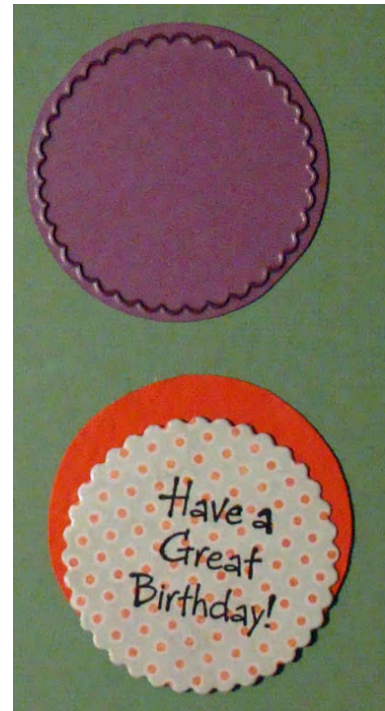

Heart - E08

Top - YR12, YR18

Shoes - E43, E44

Puppy - YR21

I airbrushed the larger flowers from my stash to match as well as the gems. The smaller roses are from Prima. I used my [Scalloped Circle Little Stackers Nesting die](#) to create the sentiment panel, again tracing the die for the panel behind it. The words are from Hero Arts, stamped with Versafine Black ink.

The last step was the leaves, die cut using my [Dimensional Large Leaves set](#). I added some Vintage Photo Distress ink to the edges for some accents.

Finished size is 6" square. You can see how many different layouts can be created by moving your panels around on your card stock. This is a very quick and easy way to design a fabulous card.
