Inside your kit:

- 2 background sheets
- 4 press out 3D sheets
- 4 green rectangle cards
- 4 ivory rectangle cards
- 2 blue rectangle cards
- 2 blue square cards
- 12 envelopes
- 1 gold sticker sayings #323
- 1 gold sticker lines #1167
- 1 sheet foam tabs

This kit makes beautiful metallic cards in the themes of birds, flowers and ships. Yes, a variety of designs to suit all of your paper crafting and greeting needs!

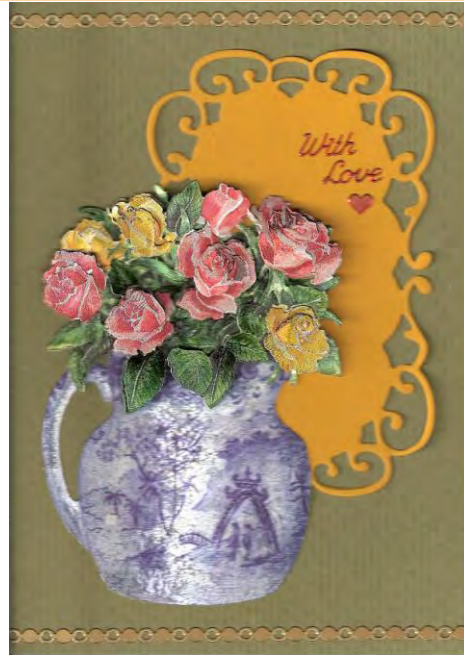

How to make the 3-D designs:

You will notice there are two sheets for each of the designs. The one sheet contains the background picture for the design and you will need to cut this out with a paper cutter or ruler and hobby knife. The other sheet contains all of the layers to complete the 3-D designs and these are press out.

1. Cut out the background design you wish to make and attach to the card using double-sided tape.
2. Press out layer #1 and place several foam tabs to the back of the layer. Attach directly on top of the background design.
3. Repeat step #2 for the remaining layers of the design. If you need a small sized foam tab, simply cut the square with a hobby knife before removing from the sheet.

How to add color to your sticker lines and sayings:

If you wish to change the color of the sticker saying or lines then simply go over them with a permanent marker in the color you wish. The sticker will turn blue, pink or purple and still maintain its metallic look!

Red Rose (above left):

1. Complete the 3-D design as shown.
2. Make a gold sticker line frame around the design.
3. Add a gold saying to a piece of green card stock and attach to the design with foam tabs.
